

Connect around activities in your neighborhood.

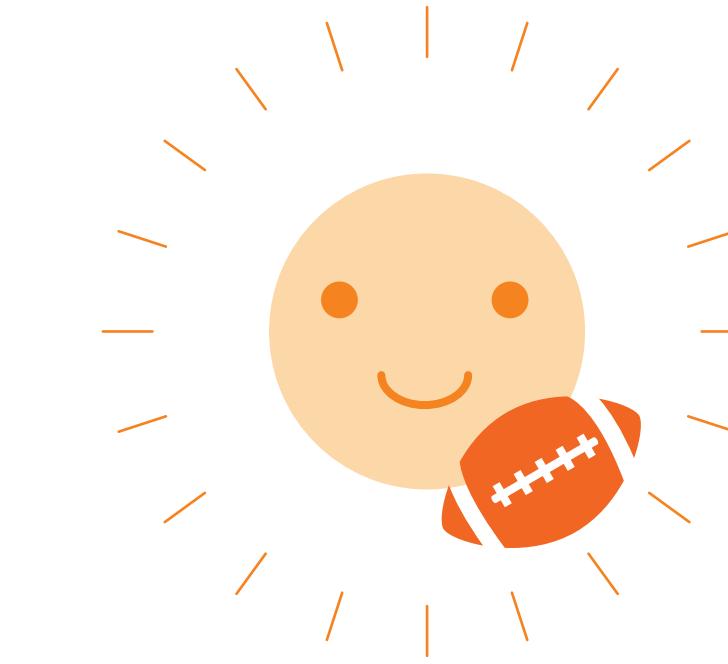

# Social Discovery Apps

# Challenges of Social Discovery

Privacy

Relevant Content  
(Location, User Preferences, etc.)

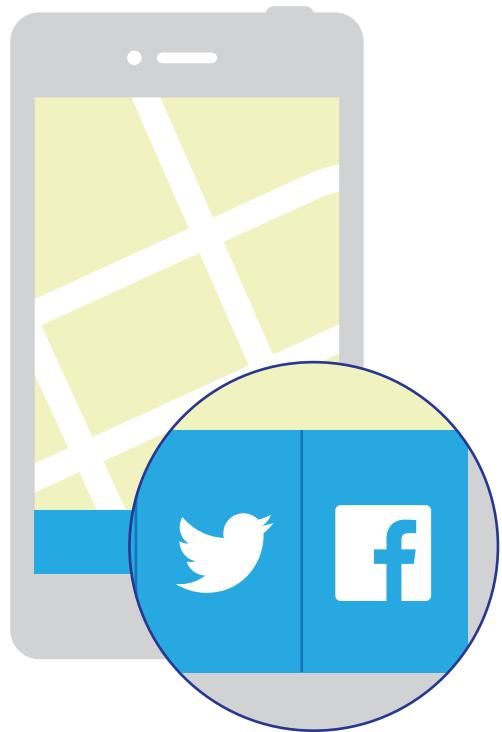

Engagement

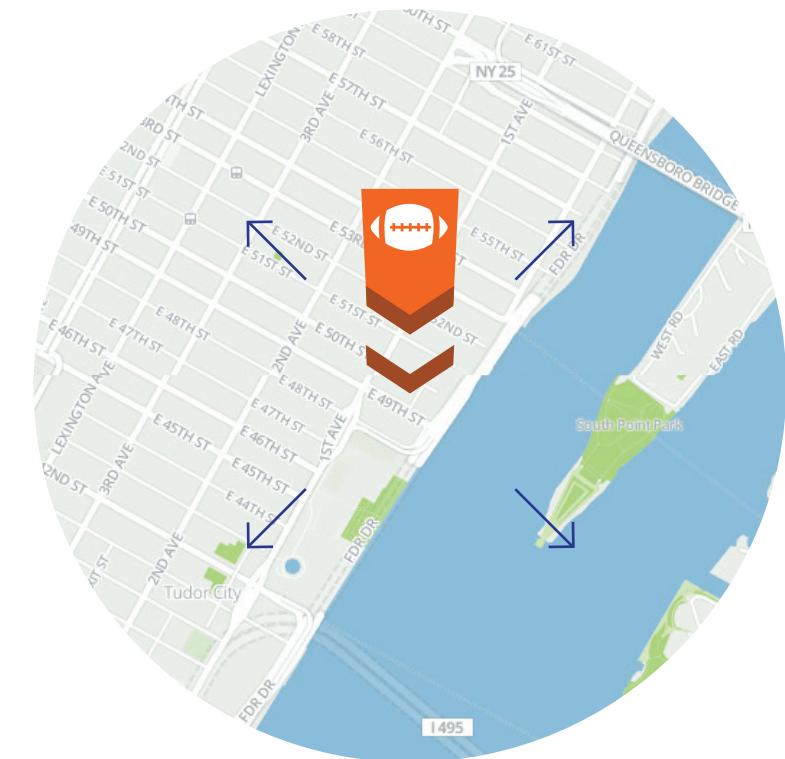

# Mission

To build a social-discovery service  
that offers users convenient, relevant  
content, drives engagement, and  
respects user privacy.

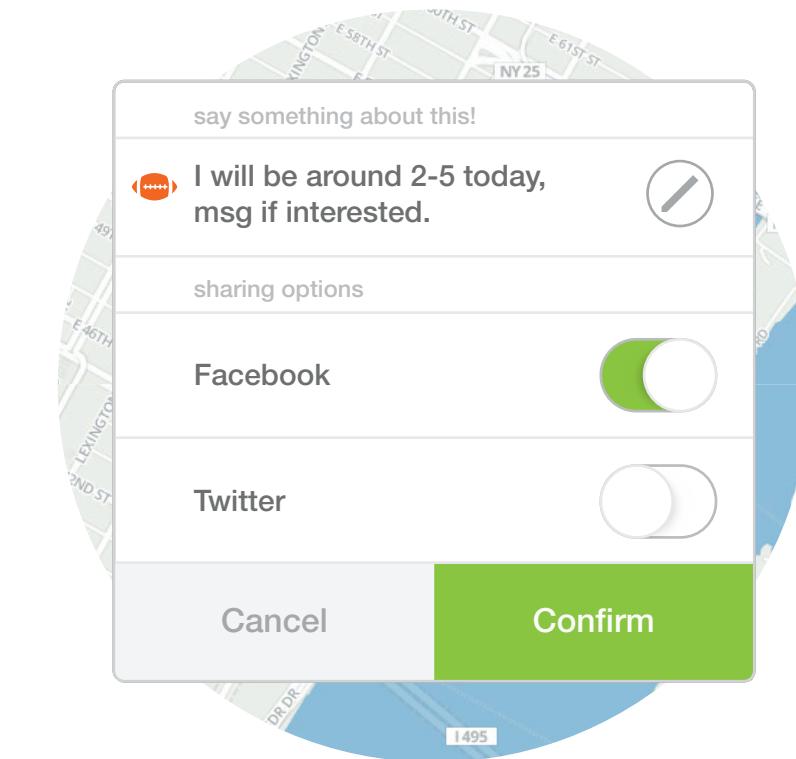

# Keep Your Privacy, Share an Activity!

Login via  
Facebook or Twitter.

Easily share an activity  
by dragging and  
dropping a tōmō.

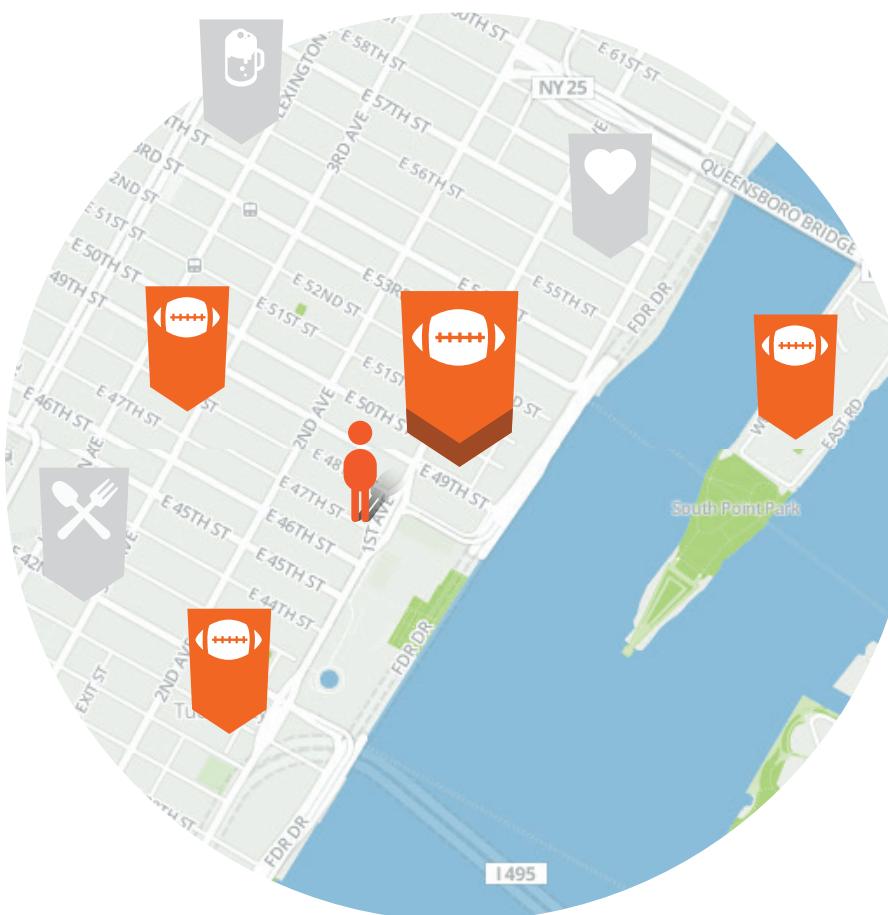

Add a message,  
share, and drop!

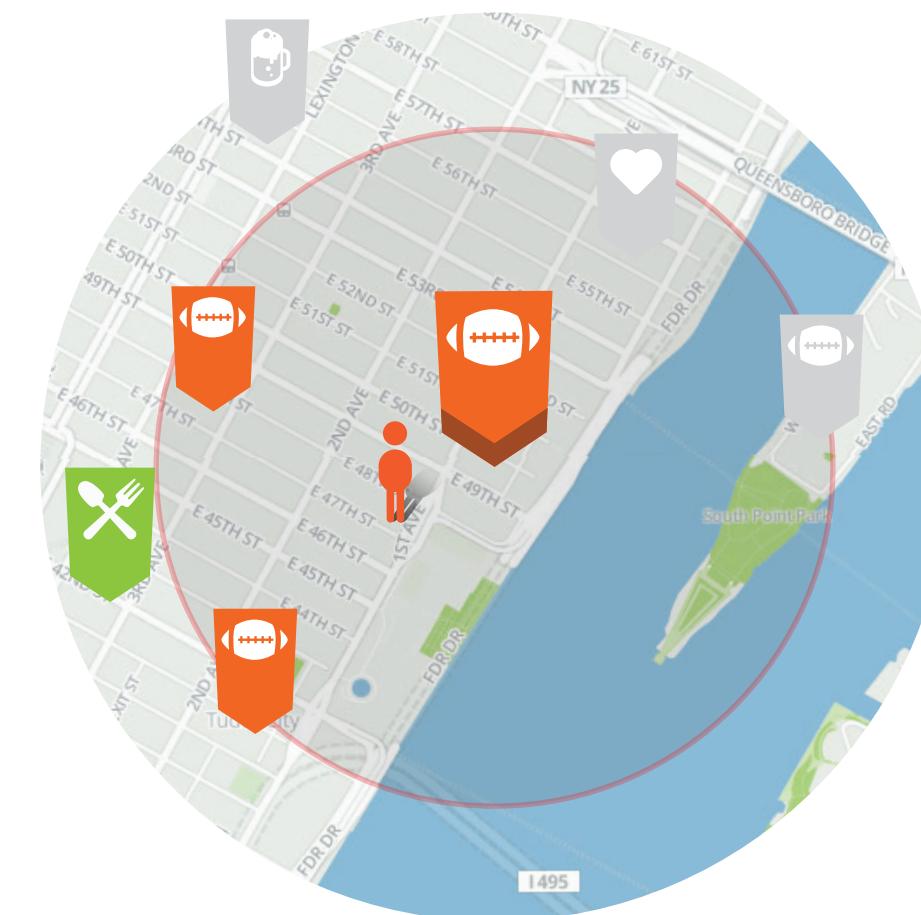

# Relevant Content in Your Neighborhood

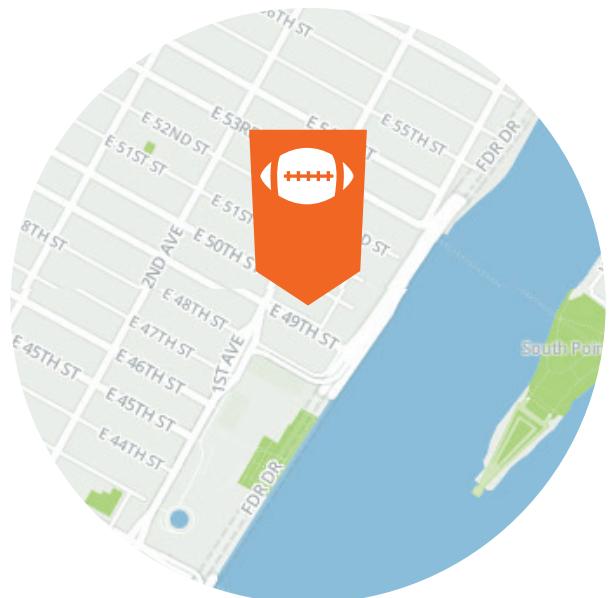

Use filters to find activities of interest to you.

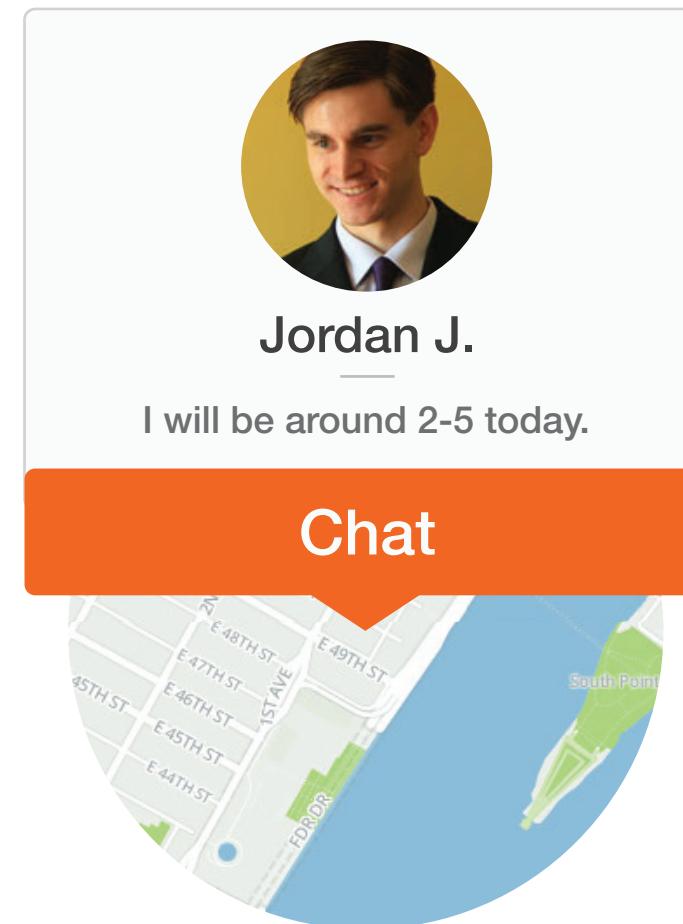

Set the distance you're willing to travel.

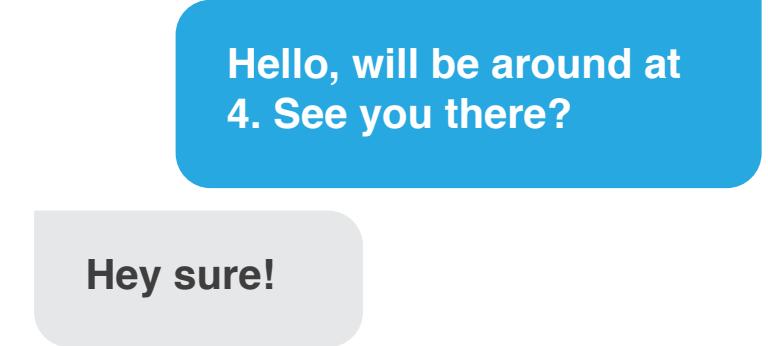

# Engagement

Just tap the  
tōmō to chat.

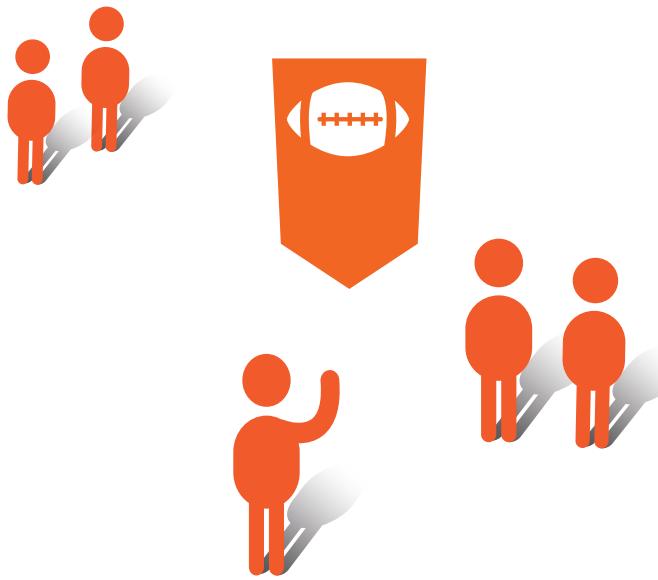

View initiator  
information.

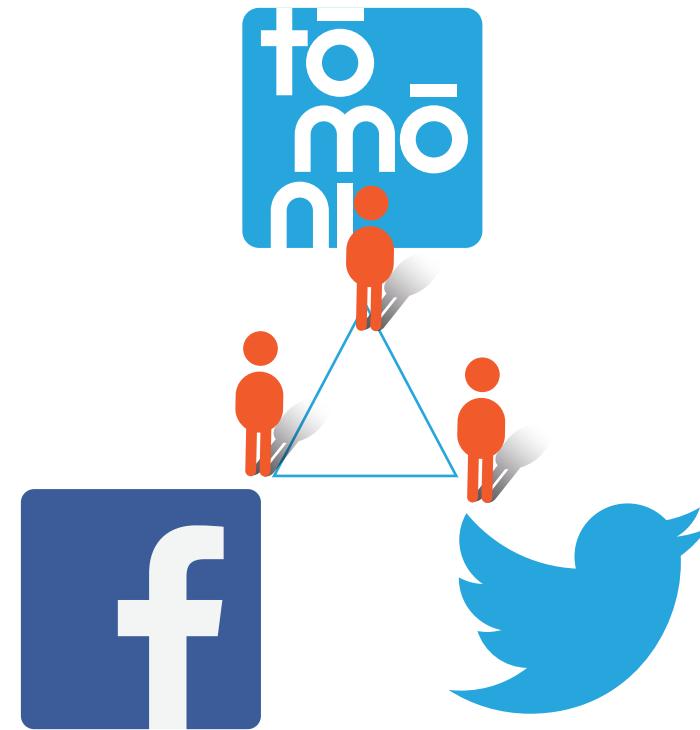

Chat for  
the details.

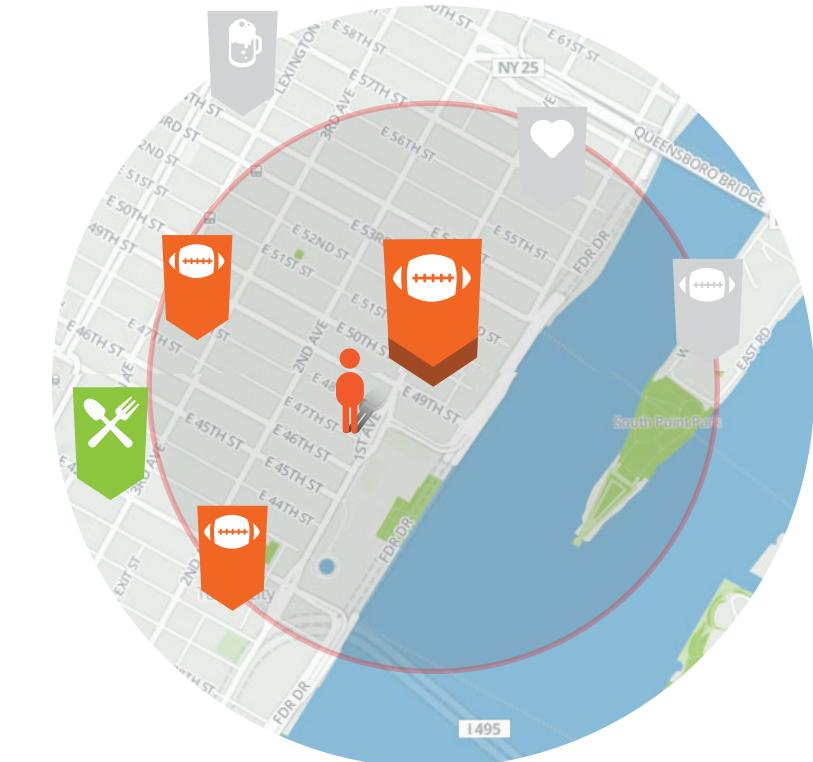

# Why Tōmōni?

Networking around activities.

Simple to share  
and connect.

Activity filters and  
notification radius.
